Expert on Egypt

Do you know that the ancient Egyptians would pull their mummy's brains out with a hook, pour salt on them, then wrap them up from head to toe with gauze, and then put them in a tomb for 1 million years? Well if you answered no, then you need to read this paper, it will tell you about the pharaohs, mummies, and the writing of ancient Egypt.

Now I am going to be telling you about hieroglyphics.

Hieroglyphics Where the form of writing in ancient Egypt. It was made up of pictures and symbols it was pretty easy to read because it was pictures. Only a few people knew how to write in ancient Egypt because it was very expensive to learn.

The pharaohs where considered gods to the Egyptians. King tut was the most important pharaoh because his tomb was not found by grave by grave robbers. Menes was the first pharaoh of Egypt and he also united Upper Egypt and Lower Egypt. Pharaohs where

like the kings of ancient Egypt.

The Egyptians believed when you died you would go in to the after life. They would pull the mummy's brains out with a hook .then they removed the organs so that they would not rot. Next they would put salts on the body to dry it out. Then finally they would wrap the body in cloth.

I don't know about you but I glad that I am not a mummy in ancient Egypt. I hope you enjoyed learning about hieroglyphics pharaohs and the mummies of ancient Egypt see you later.
